

Superautos - Eversys Cameo C'2

The e'Barista system, rather than replacing baristas, elevates them to a super barista level by providing them with the ability to set up the core components of optimal in-cup quality, whilst letting the machine reproduce their creations, time after time.

Things we love:

- Telemetry enabled
- Simple to use interface
- Self-adjusting grinders
- Simple to adjust milk foam quality
- Low profile
- Best quality espresso & milk from a super auto
- Variable temperature hot water
- Modular design makes servicing easy
- One PM visit per year
- Forces proper cleaning procedures

Room for improvement:

- Limited color options
- Expensive parts
- Preventative maintenance visit is long
